

WHY LAMINATE?

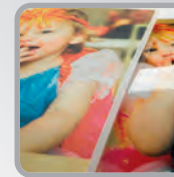

Lamination provides a durable way to preserve your documents, providing long-term protection without the need for climate control or other special protective measures.

Lamination enhances almost any type of printed material, giving your materials a higher quality, professional look which can improve your business image and help bring in more sales leads.

Something that is laminated looks better & lasts!

Benefits of Lamination

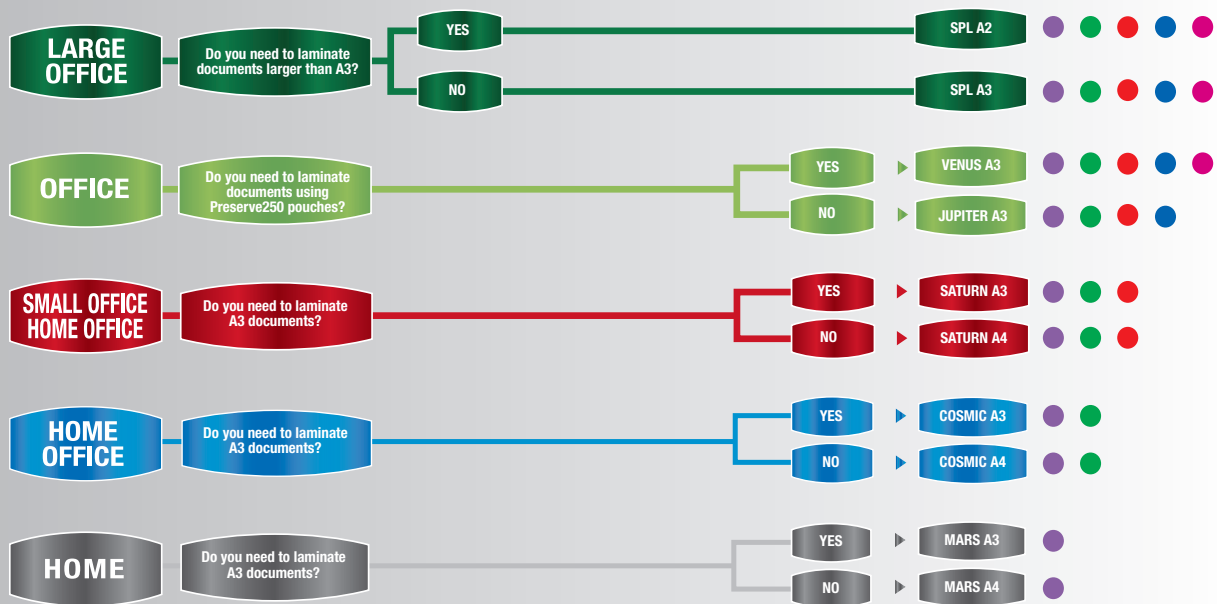

- Laminated materials can be reused; they are wipe clean and waterproof
- Valuable graphics are protected; from spills and from chemicals
- Strengthens documents; ideal for posters and signs
- Create identification badges; for employees and visitors
- Protects from the weather; ideal for external signage
- Improves the appearance of materials; deepens and brightens colours, enhances the contrast
- Provides a variety of finishes; gloss, matt pouches are available
- Eliminates creases and wrinkles; provides a perfect finish
